I'd suggest we cover all nitrate systems in KS as part of that discussion. I recall that there are 3 - 4 systems in KS that remain "grandfathered" by KDHE orders that were written under the "nitrate policy". I think that all of them but Pretty Prairie start to go away sometime this year, EXCEPT for Prettty Prairie, which I believe has an "open' timeline to get their work done. I was talking with Doug B about things a couple weeks ago, and we kinda concluded that there may be KS systems were there are BCAs (maybe orders) in place, but where they remained non-compliant for nitrate MCLs. I can look into it.

Subject: RE: KS Enforcement Response 3Q2010

We probably should brief our management on Pretty Prairie and make sure we are where we want to be with that system.
